**Subject:** RE: Source gas sampling during Phase 2  
USEPA Cover Letter - Phase 1B 1C and 2 Work Plan Submitted 1-8-14.pdf

Shawn, this issue was discussed in the cover letter to the final work plan, which was not posted to our webpage - attached. I see this as an issue to be resolved between MDNR and Republic.

Daniel R. Gravatt, PG

Principles and integrity are expensive, but they are among the very few things worth having.

**Subject:** Source gas sampling during Phase 2

All:

I have reviewed the West Lake Landfill Core Sampling Work Plan – Revision 1 and, as discussed during our conference call today with Dan Feezor, noted that there are no provisions in this revision that address source gas sampling. In addition, as discussed during our call today, a follow-up call with MDNR, EPA and the PRPs is warranted to discuss this issue as it pertains to Comment #3 in EPA's letter dated December 23, 2013 so that source gas sampling procedures can be included in revisions for Phase 2. Please let me know your availability to have this call as early as tomorrow (1/10).

Thanks,

Shawn Muenks, P.E.
